Family Meal Heating Instructions

Chanterelle & Roasted Garlic Risotto

1. Preheat your oven to 375^o.
2. Add ½ cup water inside the pan of risotto and recover.
3. Place the covered pan of risotto in your oven.
4. Bake for 40-45 minutes, or until heated to your desired temperature.
5. Stir the risotto to incorporate any standing water inside the pan.

Only need to heat a couple of portions?

We suggest heating up individual portions in separate microwave-safe bowls one at a time. For best results, add a tablespoon of water into the bowl, cover with plastic wrap, and heat until the risotto is heated to your desired temperature, about 1½-2 minutes.
