Family Meal Heating Instructions

Mother's Day Brunch

Farmer's Market Quiche & Sausage

1. Preheat your oven to 350°.
2. Place the covered meal pan with the quiche and sausage in your preheated oven.
3. Bake for 30 minutes, or until heated to your desired temperature.
4. Remove the meal from the oven and enjoy.

Pro Tip:

Like warm croissants? Remove the croissants from their packaging and place on a baking tray. Place in the oven during the last 5 minutes of the meal's baking time. Remove and enjoy at the same time the meal is done.

Only need to heat a couple of portions?

We suggest heating up individual quiches and sausages on microwave-safe plates. For best results, cover loosely with a paper towel and heat until the quiche and sausage have reached your desired temperature, about 75 seconds.
